The views at Inn by the Lake do not end when business begins, as majestic Lake Tahoe is only steps away from our new Event! Center. Our conference facility features over two thousand square feet of space and provides a variety of meeting space options for small to medium sized groups. The Sierra, Nevada and LakeView rooms are tastefully designed and fully equipped. Audio and visual equipment are available and there is also an on-site business center complete with phone, fax, copier, high-speed Internet and wireless access. To meet your food and beverage needs, our full-service catering can accommodate any function.

Along with the beautiful view of the Lake, we take immense pride in doing everything possible to ensure an exceptional meeting experience. This attention to detail is why so many groups come back year after year.
